City / Town - Blackpool

Personal Profile Statement:

A final year University of York student looking to start their career in the industry. A resilient achiever and has been a proven communicator as evidenced by his part time work in customer service and during university group projects. Knowledge of Python and Rust as well the ability to pick up new languages and technologies quickly. Broad knowledge and experience of all facets of computer science, primarily in programming and systems with experience working with Linux and Windows systems. I am happy to relocate and / or work remotely.

Education:

University of York - York (September 2023 - Present)

BSc Computer Science: Grade Pending

Modules Included: Human-Computer Interaction (HCI), Object Oriented Data Structures & Algorithms, Software & Systems Engineering, Operating Systems, Security & Networking, Introduction to Data Science, High-Integrity Systems Engineering, Qualitative Approaches to Investigating UX.

Capstone Project:

- A Linux command-line learning tool for teaching computer users how to use it for those who haven't used the CLI before.
- Review of existing literature on UX patterns in existing CLI solutions and what gamification / game-like elements to improve the end-product.
- Evaluation through problem sheets completed before and after using the learning tool as well as a questionnaire. Observed the effectiveness of the learning tool and how the additional elements improve the overall experience.
- Overall, the learning tool was deemed effective in teaching new users how to use the Linux command-line, with some points that can be used to improve it in the future.
- Used Rust and Bash throughout the project, and includes unit tests to ensure reliability.

Blackpool Sixth Form - Blackpool (September 2021 - July 2023)

A Levels / Btec: Computer Science, Mathematics, Information Technology

Highfield Leadership Academy - Blackpool (September 2016 - July 2021)

GCSEs: (1 Grade 8, 2 Grade 7s, 2 Grade 6s, 4 Grade 5s, and 1 Grade Distinction *)

Work Experience:

Flamed Wok - Blackpool (Mid 2020 - Late 2023)

Cashier / Helper

Primarily working with customers in an appropriate manner, during certain times fairly busy hours. Cashing up every night with great accuracy and occasionally training new employees when asked due to my experience. At times I had to organise and manage the other employees shifts due to the managers language barrier.

This has helped improve my teamwork and communication skills.

Technical Skills:

- Able to use and learn many software tools (such as Microsoft Access, Git, Docker, and Linux command-line utilities).
- Programming skills in different languages (primarily Rust, Python, and Javascript).
- Linux knowledge and skills (around 6 years of using it as a personal desktop).
- Developed software projects on my own (they can be found on my portfolio website: <https://davidl2.netlify.app>).
- Capable of using Windows and Linux systems effectively.

Soft Skills:

- Fluent Mandarin Speaker
- Customer Service
- Teamwork

Certifications:

Microsoft Certified - Azure Data Fundamentals (November 2023)

Demonstrated foundational knowledge of core data concepts and how they are implemented using Microsoft Azure data services

Datacom Software Development Virtual Work Experience on Forage (July 2025)

Review a web application and plan for future improvements.

Lloyds Banking Group UX Design Introduction Virtual Work Experience on Forage (August 2025)

Designed and analysed customer surveys, collecting feedback from 50 respondents to identify key areas for feature improvement.

Quantium Software Engineering Virtual Work Experience on Forage (August 2025)

Developed an interactive Python Dash application that enabled the client to assess the impact of price changes on sales and profitability
